

Colorado State Grange Capital Improvement Project Grant

Policy

The Colorado State Grange (CSG) may support any Colorado Subordinate Grange that needs financial assistance for a specific capital improvement project when CSG Capital Improvement Project Funds are available. The CSG Executive Committee has designated that funds received from the sale of real estate from closed Granges would be made available to active Colorado Granges as a Capital Improvement Project Grant, and will be designated each year in the treasury as “Capital Improvement Project Grant Funds”.

The CSG Executive Committee will determine the funds available for Capital Improvement Project Grants to be awarded each year.

Note: When a Grange becomes inactive and the Grange Hall property is sold, the proceeds from the sale of that property are held in an interest bearing account by the CSG treasury and the funds are held in escrow for seven years per the Digest of Laws of the National Grange from the date of sale, allowing that Grange to return to active status and purchase or build a new Grange Hall using those specific funds. If after seven years the Grange has not become active, the funds become available to the CSG and can be added to the “Capital Improvement Project Grant Funds”.

A Grange requesting “Capital Improvement Project Grant” funds shall complete the Capital Improvement Project Grant Application. The grant request is to be submitted to the CSG Executive Committee through the CSG office for consideration and approval at any time during a year as needed. The Grange shall also provide a detailed “Scope of Work” summary for the capital improvement project which shall include at a minimum;

- Specific, Detailed Plans
- Starting Date
- Project Location
- Project Budget
- Grange Financial Status (All funds must be included)
Checking, Savings, Investments, (and their availability for the project)
- Required Funding Date
- Grange “Matching Funds” and Source
- Expected Project Completion Date
- Partner Organizations (specific to the project)
- Project Completion Report

The CSG Executive Committee will be the review committee for each Grant request, and shall have the final decision on all grant application awards and funding.

Each Grange shall provide 1/3 of the project cost to receive up to 2/3 from the Colorado State Grange Grant with a maximum of \$10,000.00 during any two (2) year period from the original grant application date (as received at the CSG Office).

Each Project awarded a Grant shall require project completion within one year of receiving funds. Quarterly Project updates to the CSG office are encouraged.

A Project Completion Report shall be submitted to the CSG Executive Committee within thirty (30) days of the date of project completion or within 30 days from one year of receiving funds.

Colorado State Grange Capital Improvement Project Grant

Application

Grange: _____

Address: _____

Master: _____ Secretary: _____

Telephone: _____ Email _____

Project Title: _____

Project Dates: Start _____ Expected Completion _____
